Pros: Our scout group bought these packs as they were light and allow our kids to carry the necessary gear, food and water needed for 3 day/2 night, 45 km hikes. This hike is part of the scout award scheme, as the kids are limited to 25% of body weight to the amount they can carry, and they need to carry 3 litres of water, weight of the pack is crucial.

The scouts found the packs to be very comfortable and easy to use.

Our local Guides have also used these packs and deemed them to be superior to packs provided by their state branch (brand unknown)

Product tested by Scouts and Guides.

Overall: Brilliant product, when weight is an important consideration and you need to pack a lot of gear.

Tested and used by Scouts and Guides.
